Population by Ethnicity in Glasgow
Estimates of Changes 2001-2011
for Strategic Planning Areas and Neighbourhoods

Date of Issue: 12 December 2013

PLEASE NOTE THE FOLLOWING:

Any Ordnance Survey mapping included within this Report is provided by Glasgow City Council under licence from the Ordnance Survey in order to fulfil its public function to make available Council-held public domain information. 1. INTRODUCTION

The 2011 Census results show that, since 2001, Glasgow's ethnic minority population has changed significantly. Two factors have contributed to this change:-

- The Council's contract with the National Asylum Support Service (NASS) was in its early stages in 2001. Since then, significant numbers of people have been granted refugee status;
- Ten new member states have been granted accession to the European Union leading to new patterns of migration across the EU's internal borders.

In addition, there is evidence of larger numbers of people from Western and Southern European countries living in Glasgow. This could be connected to Glasgow's improved employment position since 1996. A further factor is the increase in the number of international students. These factors have changed not only the size of the ethnic minority population in Glasgow, but also its diversity.

2. POPULATION BY ETHNICITY – CITY-WIDE RESULTS

In 2001, Glasgow's ethnic minorities were defined in terms of the Black and Minority Ethnic (BME) population, which, according to the 2001 Census, made up 5.5% of Glasgow's population. However, the Council's statutory equality duties apply to all Glasgow's residents, therefore it is appropriate to include the "Other White" group in the broad "ethnic minority" classification. The changes in Glasgow's ethnic minority population, resulting from the accession of new member states to the European Union, are reflected in the new definition. Tables 1 and 2 give the estimates for both the "old" and the new definition.

It should be noted that the ethnicity question in the 2011 Census is somewhat different from the question in the 2001 Census. The comparisons given in this paper are therefore approximate, rather than exact.

Table 1 - Population Estimates by Ethnicity 2001 and 2011 in Glasgow City.

Ethnic Group	2001 Population	%	2011 Population	%
Total Population	577,869	100.00%	593,245	100.00%
White Scottish British Irish	536,015	92.76%	501,623	84.56%
Total ethnic minorities	41,854	7.24%	91,622	15.44%
Other White	10,344	1.79%	22,938	3.87%
Total BME (2001 definition)	31,510	5.45%	68,684	11.58%
Indian	4,173	0.72%	8,640	1.46%
Pakistani	15,330	2.65%	22,405	3.78%
Bangladeshi	237	0.04%	458	0.08%
Chinese	3,876	0.67%	10,689	1.80%
Asian Other	2,020	0.35%	5,566	0.94%
African, Caribbean or Black	1,792	0.31%	14,246	2.40%
Any Mixed Background	2,046	0.35%	2,879	0.49%
Other Ethnic Group	2,036	0.35%	3,801	0.64%

**Data Source: National Records of Scotland
Census 2001 and 2011 - CROWN COPYRIGHT RESERVED**

Table 1 shows that the ethnic minority population of Glasgow has increased from 41,854 (7.2%) in 2001 to 91,622 (15.4%) in 2011.

Using the 2001 definition, Tables 1 and 2 show that Glasgow's BME population has risen from 31,510 in 2001 to 68,684 in 2011. This represents a rise in the population of about 37,200, or 118%.

Table 2 - Population Change by Ethnicity in Glasgow City, 2001-2011

Ethnic Group	2001 Population	2011 Population	change 2001-2011	% change 2001-2011
Total Population	577,869	593,245	15,376	2.7%
White Scottish British Irish	536,015	501,623	-34,392	-6.4%
Total ethnic minorities	41,854	91,622	49,768	118.9%
Other White	10,344	22,938	12,594	121.8%
Total BME (2001 definition)	31,510	68,684	37,174	118.0%
Indian	4,173	8,640	4,467	107.0%
Pakistani	15,330	22,405	7,075	46.2%
Bangladeshi	237	458	221	93.2%
Chinese	3,876	10,689	6,813	175.8%
Asian Other	2,020	5,566	3,546	175.5%
African, Caribbean or Black	1,792	14,246	12,454	695.0%
Any Mixed Background	2,046	2,879	833	40.7%
Other Ethnic Group	2,036	3,801	1,765	86.7%

**Data Source: National Records of Scotland
Census 2001 and 2011 - CROWN COPYRIGHT RESERVED**

The largest **percentage** increase is for those classified as having an ethnic origin of "African, Caribbean or Black": a rise of almost 700%. This represents a numerical increase of just short of 12,500 (from 1,800 to 14,200).

There has been an increase of a similar size for the population categorised as "Other White", which includes all White people, who are not Scottish, British or Irish. The size of the "Other White" population has risen by almost 12,600, or 122%: from 10,344 in 2001 to 22,938 in 2011.

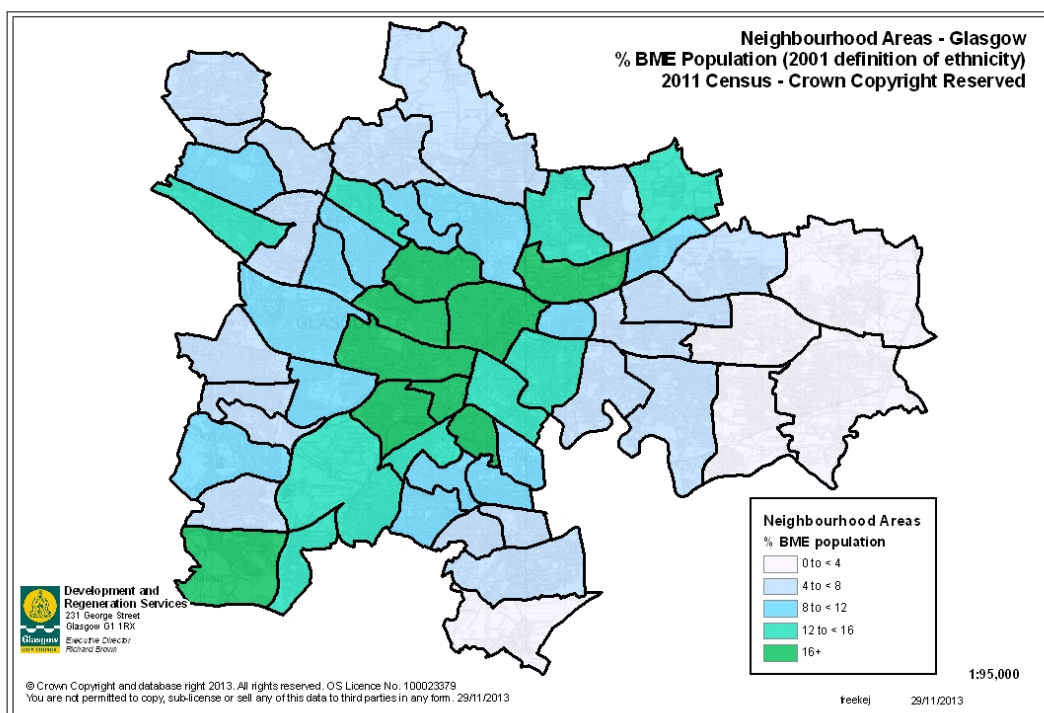

Available evidence indicates that, although a rise in the number of Eastern Europeans has been the main reason for the rise in the "Other White" population, there have also been increases in the numbers from Western and Southern European countries.

In addition to the above, Table 2 shows sizable numerical increases for the following ethnic groups: Pakistani (+7,100), Chinese (+6,800), Indian (+4,500) and Asian Other (+3,500).

3. GEOGRAPHIC PROFILE - BME POPULATION (Excluding "Other White").

To assist with comparisons with 2001 Census results, the map and text for this section use the 2001 definition of ethnicity (BME population). Map 1 shows the locational pattern, in terms of neighbourhoods, for Glasgow's BME population in 2011. The "Other White" population is considered separately in section 4 below.

There are concentrations in Glasgow's City Centre, Sighthill/Roystonhill and Springburn, some neighbourhoods in the Inner South and South Nitshill/Darnley. The BME population share is highest in Pollokshields East (53%), Pollokshields West (37%), Govanhill (33%) and Ibrox/Kingston (24%). The BME population is very small in the East of Glasgow and in Carmunnock.

Since the Census in 2001, there have been some changes in the geographic profile of ethnic minority citizens in Glasgow. Where ethnic minority citizens already represented a higher proportion of the neighbourhood population than in the City as a whole, their proportion of the population has increased. To illustrate, only four neighbourhoods had an ethnic minority population of 12% or more in 2001, this rose to eighteen neighbourhoods in 2011.

The ethnic minority population of the City is now located in a wider range of neighbourhoods than those considered to be “traditional ethnic minority areas”, indicating a greater degree of mobility in the City’s established ethnic minority communities. Examples of neighbourhoods where the BME population has increased from a low base in 2001 are Pollok, Greater Govan, Knightswood, Ruchill/Possilpark and Toryglen. E.g. in Pollok the number of Pakistani, one of the largest ethnic minority groups within the City, rose from 71 to 454, i.e. an increase of 383.

The BME population has grown significantly in several neighbourhoods of Glasgow South, City Centre and Glasgow North. Between 2001 and 2011, the highest increases have been in Govanhill (from 19% to 33%), Greater Gorbals (from 3% to 13%), South Nitshill/Darnley (from 9% to 24%), Ibrox/Kingston (from 12% to 24%), Yorkhill/Anderston (from 12% to 26%), City Centre/Merchant City (from 11% to 23%), Sighthill/Roystonhill (from 11% to 30%) and Springburn (from 3% to 16%).

4. GEOGRAPHIC PROFILE – “OTHER WHITE” POPULATION.

Map 2 shows that the locational pattern for the “Other White” population in Glasgow (West / City Centre / East) is somewhat different from the pattern for the BME population (North East / City Centre / South West, see Map 1). A broad grouping of “Other White” populations is concentrated in Glasgow’s West End, the City Centre, Calton/Bridgeton and Tollcross/West Shettleston. Generally, these are areas where privately rented accommodation is common. Map 2 also shows some concentration of “Other White” people in Yoker and Scotstoun, Greater Govan, Ibrox/Kingston, Greater Gorbals, Govanhill and Arden & Carnwadric. The latter concentration is partly explained by the arrangement in Arden, where Glenoaks Housing Association provides accommodation for A8 nationals working for First Bus.

Between 2001 and 2011 the highest increases for the “Other White” population have been in Arden/Carnwadic (from 0.7% to 6.8%), Greater Govan (from 0.8% to 5.7%), Govanhill (from 1.8% to 6.2%), Calton/Bridgeton (from 2.7% to 8.0%), Parkhead/Dalmarnock (from 0.5% to 5.4%) and Tollcross/West Shettleston (from 0.7% to 5.3%).

The ethnicity question in the 2011 Census form contained the additional categories: “White – Polish” and “Other ethnic group – Arab, Arab Scottish or Arab British”. Table A2 in the Appendix shows the numbers for these categories by neighbourhood.

APPENDIX – Tables with Detailed Results.

The Tables of the Appendix show the more detailed results of this exercise for Strategic Planning Areas and Neighbourhoods in Glasgow:

- Table A1 gives the 2001 population estimates (Source: 2001 Census)
- Table A2 gives the 2011 population estimates (Source: 2011 Census)
- Table A3 compares the ethnic breakdown of the population in 2001 and 2011

The Appendix includes a map of the 56 neighbourhoods in the City, together with a list of the neighbourhood names.

The estimates in this paper are estimates for data zones, amalgamated to estimates for neighbourhoods on a “best-fit” basis. The grouping of the neighbourhoods to the three SPAs has made it necessary to make a small change to the neighbourhood definitions, in terms of data zones, in order to harmonise the neighbourhood definitions with the ward definitions. Given this change, the opportunity has been taken to make some further adjustments to the neighbourhood definitions, in order to eliminate some discrepancies with the definitions used in the Understanding Glasgow website.

As a result of this, there have been adjustments to the population numbers of the following neighbourhoods:

upward adjustment	downward adjustment
Hyndland, Dowanhill & Partick East	Broomhill & Partick West
Ruchill & Possilpark	Springburn
Pollokshields East	Shawlands & Strathbungo

The adjustment has been applied to both the 2001 and 2011 estimates, so that the figures in the Tables, i.e. Tables 1 and 2, can be compared.
