SILVERBURN PLAN

(Artist impression of the plans for Phase 2 of Silverburn)

The Spatial Master Plan has been released for the development of the Eastern part of Silverburn. I shall be asking for local residents to be employed both in construction and service jobs during the build and subsequent completion of this major project.

For further information on the plan please contact me by email and I shall send you a copy of this document or contact me at any of my surgeries.

POTHOLES

Everyone is fed up with potholes. This is a problem all over the country but I'm only interested in Greater Pollok. That's why I'm delighted at the recent five-fold increase in Glasgow's roads maintenance budget, up from £4 million to £22 million in 2011

This is a massive investment by your Council which has been applauded by drivers, bus passengers, pedestrians and cyclists.

FIGHTING FOR GREATER POLLOK

My job is to fight for Greater Pollok. Part of that involves helping local groups get funding. In the last year, I have helped support the award of Glasgow City Council grants to: Arden Senior Citizens, Saint Monica's Primary School, Howford School, St. James' Church Hall and the Bullwood Project, amongst others.

GLASGOW'S HELPING HEROES

As Glasgow's Veteran's Champion I am always honoured and delighted to help our city's veterans in any way possible.

If you are a Veteran and have not yet received your Veterans Badge please contact me and, in conjunction with the local MP, I shall apply for the award of your badge.

I serve as Vice Convener on the Board of Strathclyde Fire & Rescue and I am acutely aware of the dangers fire presents within our community.

If you would like a home fire safety visit please contact the Station Officer at Pollok Community Fire Station on 0141 882 4872
