1 (b)	3 rd October 2018	<u>Allow motorcycles to use bus lanes in Glasgow.</u> Motorcycles make up a large number of vehicles on the road in the UK today, and in other cities around the country like Edinburgh or London motorcycles are allowed to travel freely using bus lanes. This in turn reduces traffic and is safer. Even though filtering is legal when bikes are hit when doing this it is often viewed as 50/50 so why not open up the use of often empty bus lanes to motorcycles and potentially reduce the risk to an already vulnerable road user.
