Dear

## Your Mandatory Reconsideration Notice

You, asked us to look again at the decision we sent on 23-Dec-2013  
We have taken into account all the information available.

We have not changed our decision.

An explanation of our Mandatory Reconsideration decision is set out below.

### **Mandatory Reconsideration – No Limited Capability for Work - Not Revised**

**I am unable to revise the decision of 04/12/13 treating you as not having Limited Capability for Work from and including 04/12/13 This is because you did not score the minimum 15 points required to satisfy the conditions of the Work Capability Assessment and there is no evidence to suggest that the decision was incorrect.**

You were awarded Employment and Support Allowance from and including 20/08/13 on the basis that you are suffering from depression

On 09/10/13 you completed a limited capability for work questionnaire (form ESA50) in which you identified difficulties with:

#### **Mental, Cognitive and Intellectual functions**

- 11 - learning how to do tasks
- 12 - being aware of hazards or danger
- 13 - initiating actions (starting a task and finishing it to the end)
- 14 - coping with changes
- 15 - getting about (coping with getting about on your own)
- 16 - coping with social situations
