Subject: Community asset request /FOA Jackie Henderson
Date: 12 September 2018 18:48:31

The Pollokshaws & Eastwood Community council at their monthly meeting on 10th Sept 2018 were informed that the Pollokshaws Area Network (Pollokshaws Community Hub) had placed an asset transfer request of former nursery 132 Shawbridge St ,It was noted by majority we fully support the P.A.N in this request .

The community council has been going for 30 plus years and during that time has led a nomadic existence as there has been no where to have a base long term as there has been a succession of temporary meeting places knocked down by the TRA happening ,We have been settled at the Hub for 2 years now ,and at last able to act and expand on the function we were formed for under the LGA 1973 , it has allowed us to be more proactive here and closely working with the P.A.N deliver and participate in joint projects that would never have been able before .

As stated we now have a base we can store stuff, banners, signage, paperwork etc and a place where people can easily contact us and depending on the issue either one or both groups can take local issues forward ,it is also handy to have meeting's with elected members or public meetings with CPP partner organization's and the TRA/T:CG ,but there are those less visionary in community engagement which we take in our stride we sincerely hope this request is granted for the sake of the community we are trying to rebuild after regeneration .

Thank you for your time

Regards [REDACTED] Secretary

Pollokshaws & Eastwood Community Council
