

Community Grants

Glasgow City Heritage Trust

Would you like to explore the heritage of your local area? Or celebrate the history of your sports club? Got a great idea for an exhibition or event that will bring the community together to learn and share stories about the past?

Glasgow City Heritage Trust has recently launched a new Community Grants scheme, with **grants of up to £2000 available** to support projects largely developed by community members that engage communities with Glasgow's historic built environment. This could mean an area, building, place or green space, or you might like to discover more about a particular person or architectural style.

It's important that your project will enable a wide range of people to engage with heritage, and we're keen for there to be a tangible benefit to your community; maybe creating something that people can enjoy in the future, setting up a new group or helping people develop new skills. We'll be here to support the development and delivery of your project, and to assist you in evaluating it.

Glasgow City Heritage Trust is supported by:

What sort of groups may be eligible?
