Subject: Community asset transfer request ward 12 - Broomhill Avenue Greenspace

I am writing to note my support for this application.

Friends of Broomhill Avenue Greenspace have developed this area into a valuable resource for the local neighbourhood, including organising social activities to bring local residents together. The greenspace is right next to the Clydeside Expressway, and close to a pollution hotspot on Dumbarton Road. The group have plans for further planting which will contribute to the green corridor along the Expressway, and help protect residents from the noise and pollution from the road.

Regards
