Subject: Broomhill Avenue greenspace asset transfer

I support the asset transfer of broomhill Avenue greenspace as a lease to the community

This area is vital greenspace in a very built up area with so many flats.....to have somewhere to go to in the local area with children and dogs, is hugely beneficial to all the residents

This area has heavy traffic in every direction....broomhill drive, clydeside expressway and Dumbarton road. To retain this area as greenspace and let the local community maintain and improve the site would be a fantastic environmentally friendly opportunity for the area.
