ADULT SUBSTANCE MISUSE SERVICES

We give support and advice to adults who are experiencing problems related to their own or someone else's drug or alcohol use. We provide specialist interventions to help prevent and reduce the harmful use of drugs and alcohol.

We won't judge you and will work at a pace you are comfortable with, helping you to get well and have a better quality of life.

We also offer support to family and friends who can also be affected by drugs and alcohol misuse.

CONFIDENTIALITY

We know that confidentiality is really important to people who use our services. Workers will talk to you about confidentiality and what it means and how it may affect you. We try to keep everything discussed between us confidential. However, if we are really worried about your safety, we may give someone else information to protect you but we will always aim to let you know first.

Addaction has a robust and comprehensive Safeguarding Policy in place to protect the people who access our service, their families and our staff from any harm. We firmly believe that safeguarding is everyone's business.
