

**EVENT DAY EMERGENCY ROUTES AND PARKING ZONE ORDER 20\_\_  
CELTIC PARK AND EMIRATES ARENA & IBROX STADIUM**

**To Glasgow City Council**

Thank you for your response dated 21 October 2020 with respect to the above.

The reporters have agreed to extend the sist to 21 January 2021, based upon the content of the third paragraph of your response. The reporters have noted that officers who would deal with the technical matters to be raised at the hearing would not be fully able to deal with such matters at the present time.

The reporters consider it important that the council's statement and accompanying documents provide comprehensive evidence (including where necessary appropriate technical and survey information) to support the making of these orders in the context of the objections lodged and the resulting subjects set out in paragraph 3.3 of the explanatory note accompanying the agendas for the pre-hearing meetings.

The reporters have also noted the content of the second paragraph of your response which refers to the uncertainty that exists in relation to attendance at the stadia and the use of public transport. The reporters consider that these are potentially longer-term issues beyond the immediate effect of the pandemic restrictions, which may not be resolved by 21 January 2021, and they will seek the council's further views on these issues when the extended sist expires.

The reporters have now prepared an update for the web-pages for both orders, indicating that the sist (which will be referred to as a suspension of the hearing process) has been extended to 21 January 2021 on the basis referred to above.

The reporters have noted that the council intends to submit a response to the legal challenge on behalf of Celtic Football Club by 18 November 2020. Notwithstanding the sist with respect to the hearing process, the reporters will give further consideration to this matter following the receipt of the council's response.

Regards,

Programme Officer Team
