Switching on, setting up & connecting to Wi-Fi:

Please Note:

If you are setting up your iPad in your Early Years establishment your iPad will automatically connect to the Glasgow Schools Network via the AppleEDU Wi-Fi network.

1. Setup Instructions: These are for those unable to access the videos & tutorials on Teachable.
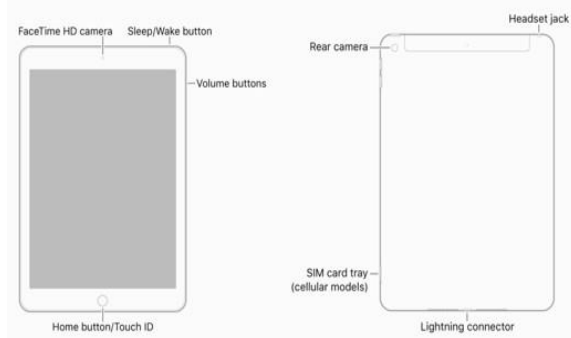

Agenda / To do List:

- Your iPad
- Switch on iPad
- Connect to WiFi
- Passcode
- Apple ID
- Proxy Authentication
- Self Service to download & update apps
- Glow email using Outlook
- Troubleshooting & Helpdesk details
- Sign off to confirm completion of Deployment.

2. You can insert the 2 tabs of the cover into the back of the case so that it stands up in portrait mode.
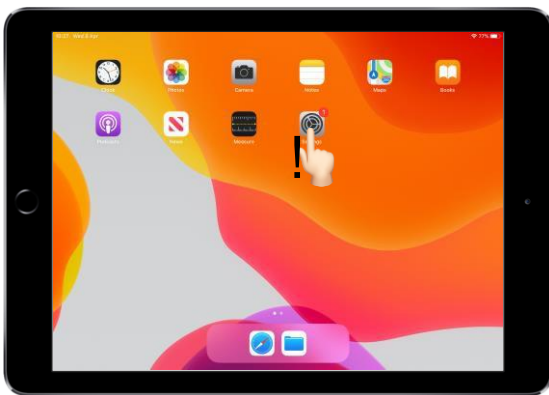

3. You can also find details in your Apple booklet, you collected, which shows the functions of the iPad buttons.
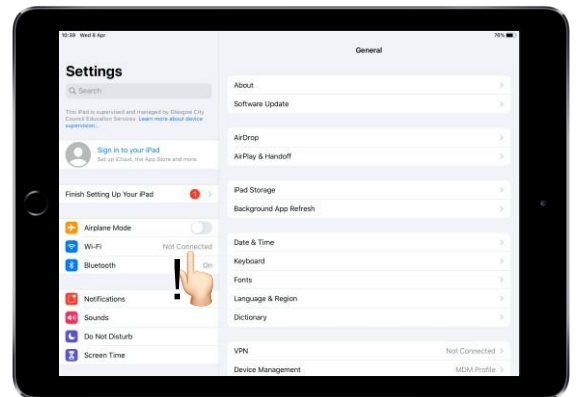

4. Let's get started! Press & hold on the on/off button until the Apple icon shows. Then release to wake up your iPad.
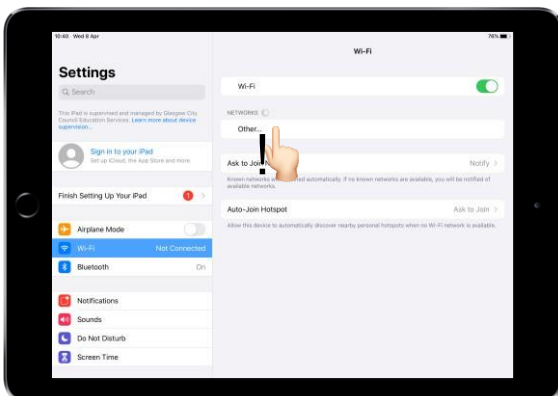

5. Once awake, you will be at the Home Screen. Please select the Settings app to access your WiFi. YOU MUST be connected to a Network / internet before you can do anything else.

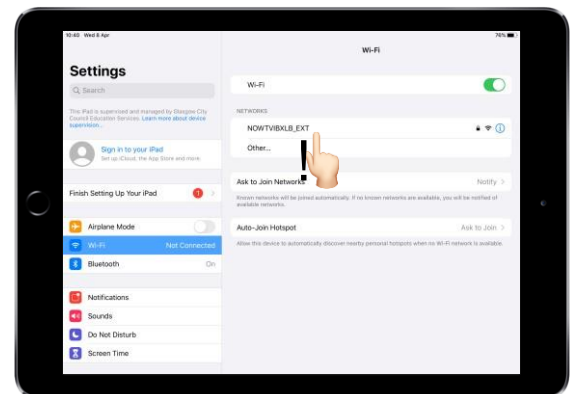

6. In Settings, tap on WiFi – you will notice you are not yet connected to any Network. We need to do so, to activate the next steps.

7. Make sure your WiFi toggle is on / green and your iPad will search for the nearest Network.

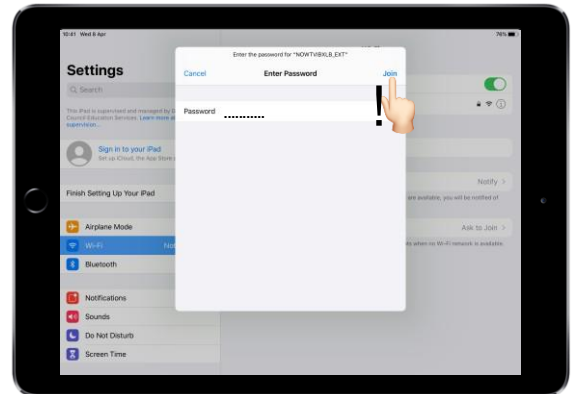

**8. Select the Network you want to use.**

9. Enter your WiFi password – this can be found on the back of your router.

10. Tap Join.

11. WiFi setup complete once you see a tick ✓ Tap on Home Button.

WiFi Setup Complete but if you are still having issues with any of the above steps, please contact the Connected Learning Team.
