## **Changing your Bitlocker PIN**

New users will notice a change to the security screens when accessing the new Windows 10 laptop, when you switch on your new device a blue Bitlocker Pin screen will appear.

Your Bitlocker should be unique and known by you only, please change this as soon as you receive your new device, follow these steps:

- 1. Click Start and type Manage Bitlocker
- 2. Click BitLocker Encryption Options
- 3. On the Microsoft BitLocker Administration and Monitoring screen, click Manage your PIN
