

Health and Wellbeing Resource Guide

Useful resources to download, print or order

July 2023

OFFICIAL

About this resource guide

It's so important that all staff have access to information and resources in the workplace to help support their health and wellbeing.

That's why we've pulled together a collection of places where you can access free health and wellbeing resources for your workspace including posters, leaflets, contact cards and other promotional materials designed to raise awareness and help signpost staff to help if they need it.

The resources we have linked to in this guide are free to download and can be printed or shared with your team digitally. Alternatively, where free hard copies are available, we have included details of how to order these for direct delivery or pick up.

Mental health support

Our Council Mental Health Support Routes Poster can be [downloaded to print](#) for your work location
