

Domestic bin collections – Update noted.

5 There was submitted and noted a report by the Executive Director of Neighbourhoods and Sustainability regarding changes to kerbside collection frequency, the bin replacement programme (BRP) for flatted properties and recycling markets, advising

- (1) that following the 2019/20 Council budget decision, the kerbside collection frequency project proposed to alter the collection frequency from 2-weekly to 3-weekly and to extend the current glass collection service from every 4 weeks to every 8 weeks in order to increase the level of material captured for recycling and achieve savings;
- (2) of the existing and proposed collection arrangements, the policy implications of the collection frequency changes and the comprehensive communication strategy that had been developed with key stakeholders;
- (3) of progress made with the bin replacement programme (BRP) highlighting the roll-out of phases 2 and 3, as detailed at appendix 1 of the report;
- (4) of the Blochairn Materials Recycling Facility (MRF) operation and the waste streams managed by the Council and their destinations, as detailed at appendix 2 of the report; and
- (5) of the recycling market challenges for the Council.
