

Transport Delivery Steering Group – Update noted.

5 With reference to the minutes of the City Administration Committee of 31st October 2019 (Print 5, page 374) approving the establishment, membership and terms of reference of the Transport Delivery Steering Group (TDSG), there was submitted and noted a report by the Executive Director of Neighbourhoods, Regeneration and Sustainability providing an update on the work of the TDSG since the inaugural meeting on 8th December 2020, advising

- (1) that the purpose of the TDSG was to deliver or facilitate work in connection with the capital investment projects outlined in the Phase 2 report of the Connectivity Commission and relevant projects arising from the Regional Transport Strategy produced by Strathclyde Partnership for Transport (SPT);
- (2) of the terms of reference, membership and meeting arrangements; and
- (3) in further detail of the meetings held to date and the benefits of the TDSG.

After consideration, the committee noted the report and supported any arrangements for the future of the Transport Delivery Working Group to give consideration to engagement with other elected members and that their views be taken into account particularly when developing future workplans.
