Your ref: 00729 SCREENING

30 August 2012

Dear Ms Shaw

ENVIRONMENTAL ASSESSMENT (SCOTLAND) ACT 2005
Glasgow City Council - Design Guide for New Residential Streets

Thank you for consulting Historic Scotland on the screening report for Glasgow City Council's - Design Guide for New Residential Streets, received by the Scottish Government's SEA Gateway on 8 August 2012. I have reviewed the screening report on behalf of Historic Scotland in its role as a Consultation Authority under the above Act, in accordance with the requirements of Section 9(3). In doing so I have used the criteria set out in Schedule 2 for determining the likely significance of the effects on the environment. Please note that our view is based on our main area of interest for the historic environment.

My understanding from the screening report and draft Design Guide is that the guidance will outline principles and procedures for the design of new residential areas, but will not apply to infill developments or non-residential areas. I note that the guidance will not allocate sites for residential development and will not be spatially specific.

It is the view of Glasgow City Council that the Design Guide for New Residential Streets is unlikely to have significant environmental effects. In light of the information included in the screening report, I agree that the strategy is unlikely to have strategically significant effects on the historic environment. However, as you will be aware, it is the responsibility of Glasgow City Council as the Responsible Authority to determine whether the strategy requires an environmental assessment and to inform the Consultation Authorities accordingly.

Please do not hesitate to contact me if you wish to discuss this response.

Yours sincerely

Virginia Sharp
Senior Heritage Management Officer, SEA
